**DETAILED ACTION**

***Response to Amendment***

1. The amendment filed on December 22, 2008 has been entered.

Claims 1 – 6, 9, 10, 12 and 13 are pending.

Claims 5, 6, 9, 10, 12 and 13 are rejected.

Claims 1 – 4 are allowed.

***Claim Objections***

2. Claims 1 and 10 are objected to because of the following informalities:

In claim 1, "TL1" should be changed to "Transaction Language 1"; "the session ID included in the response" should be changed to "the session identifier included in the response" because the response is introduced to include "the session identifier"

In claim 10, "respective source network elements that transmitted original command messages" should be "respective source network elements that transmitted the original command message"

Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 5, 6, 9, 10, 12 and 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

(1) with regard to claim 5:

The subject matter "the port of a network element" (line 3) and "the extension network element identifier of the response" (line 10) both lack proper antecedence basis.

All of the dependent claims of claim 5 are rejected as well for at least the same reasons.

(2) with regard to claim 10:

Claim 10 recites a system for extending an optical network. However, the body of the claim never describes an optical network. It is not clear how the optical network relates to the rest of elements of the claim. Furthermore, the limitation "the extension network element identifier of the response" lacks proper antecedence basis.

All of the dependent claims of claim 10 are rejected as well for at least the same reasons
